**Against: Windsor**

**Result: Lost 20-16**

**Tries: Logan (2) Darius (1)**

**Goals: Blade (1) Josh (1)**

## **Match Report:**

As I am writing this I am still a super excited coach as these boys played the game of their lives and their hard work at training and their determination with their fighting spirit is really kicking in and talk about making them an exciting team to watch this week.

From kick off these boys played hard. They ran the ball like I have never seen them do and talk about tackling wow they hit some of these Windsor boys hard.

Our attack this week was fantastic seeing all the boys get out there and run as hard as they can they were making some good metres. Logan as always got out there a cleaned up with 2 tries and they were fantastic. Darius well he used all his strength and busted through the defence and dragged a couple of kids to make that try line he was so determined he was getting there. But I can't leave Cooper out either he got out there and ran that ball as hard as he could but also matched it up with some great tackles. Josh he put in another good performance this week to. But most of all every single one of these boys played as a team and got in there and gave their best in both attack and defence.

Unfortunately in the last 3 seconds Windsor made the try line and converted their kick for goal. It was a great game but a real nail biter and well parents what can I say I heard every single one of you cheering every single player on out there whether they were running the ball and congratulating team players for great tackles. The feeling was electric out there and we are looking forward to rest of the season watching these guys improve each week there is no better feeling. These boys may have lost but in my eyes and all the parents eyes they were winners today cause they played as a team.

**WELL DONE BOYS HOLD THOSE HEAD HIGH BECAUSE THAT'S WHERE THEY SHOULD BE.**
